A common error exists in the minds of many students relative to the place of studying medicine; those who intend practising among the diseases of the West and South should certainly educate themselves at a School whose Faculty are practically acquainted with those diseases. THE BENEFITS OF ADVERTISING. WE learn that Dr. S. P. Townsend has sold out the good will of his Sarsaparilla business, including machinery and raw material on hand, for the large sum of \$190,000.— This is an illustration of the advantages and benefits of advertising. The purchasers are Messrs. Nostrand & Bach, both wealthy and well known individuals. They have, we understand, employed the celebrated Chemist, Dr. James R. Chilton, who will hereafter have the compounding department under his own immediate supervision. They are men of enterprise, and will, no doubt, sustain the character of this celebrated medicine, which has the reputation of being the best preparation of Sarsaparilla made in the United States. The new proprietors, we understand, warrant their article to stand in all climates any length of time, which we have no loubt of, when manufactured by so practical a chemist as Professor Chilton, who is well known to be one of the first chemists in this country.

The public are hereby notified that the preparation extensively known as Dr. S. P. Townsend's Compound Extract OF SARSAPARILLA, is now manufactured under my direction and supervision, from the ORIGINAL RECIPE obtained from Dr. S. P. Townsend, and I certify that it is composed of ingredients purely regetable, and without Mercury—and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effects. JAMES R. CHILTON, Chemista New York, February, 1850.
